## Coroner Says Dinsmore's Death Caused By Drowning

### Autopsy Result Shows Drowning Cause Of Death

Investigation Is Made Following Finding Of Dinsmore's Body

### Missing Man's Body Found In Shenango River Late Friday

After a thorough autopsy had been completed over the remains of John Dinsmore, aged 62, civil engineer, whose body was found in the Shenango river Friday afternoon at 2:30 by Albert Wolfe of West Grant street, Coroner Orville Potter announced at noon that death was due to drowning.

A complete examination of the brain and internal organs revealed no indication of foul play, Coroner Potter stated, and the lungs were filled with water, indicating that drowning had been the cause of death.

**Jewelry on Body**  
The belief that Dinsmore had not met with foul play is further strengthened by the fact that none of his jewelry was missing and his purse was in his pocket, intact, when the body was taken from the river, Chief of Police John Haven stated.

Dinsmore attended an engineers' banquet at The Castleton hotel two weeks ago last night, after which he returned to his rooms at the Leslie hotel. It was reported that he left the hotel and then went to a restaurant in South Jefferson street and left that place probably around 1:30 a. m. He is said to have walked a few feet in a southern direction, after which all trace of him was lost until his body was found yesterday.

**Search Is Made**  
His sons requested that search be made for him, in the fear he had met with foul play. During the past two weeks search was made in the West Pittsburg swamp, the various (Continued On Page Two)

**PA NEW OBSERVES**  
Dear Pa New:  
The act of vandalism that occurred on the Diamond Wednesday night, by breaking of the stone bench was disgraceful. Joseph Alexander, Director of City Parks, is trying to beautify the city so that when strangers visit us we will have enough civic minded people in the city who do not approve of this destruction, and the park department would appreciate any information that would give some idea to who is doing the damage. Mr. Alexander promises drastic action to the person or persons who are responsible for the devastation that has been going on in the places the city is trying to beautify.

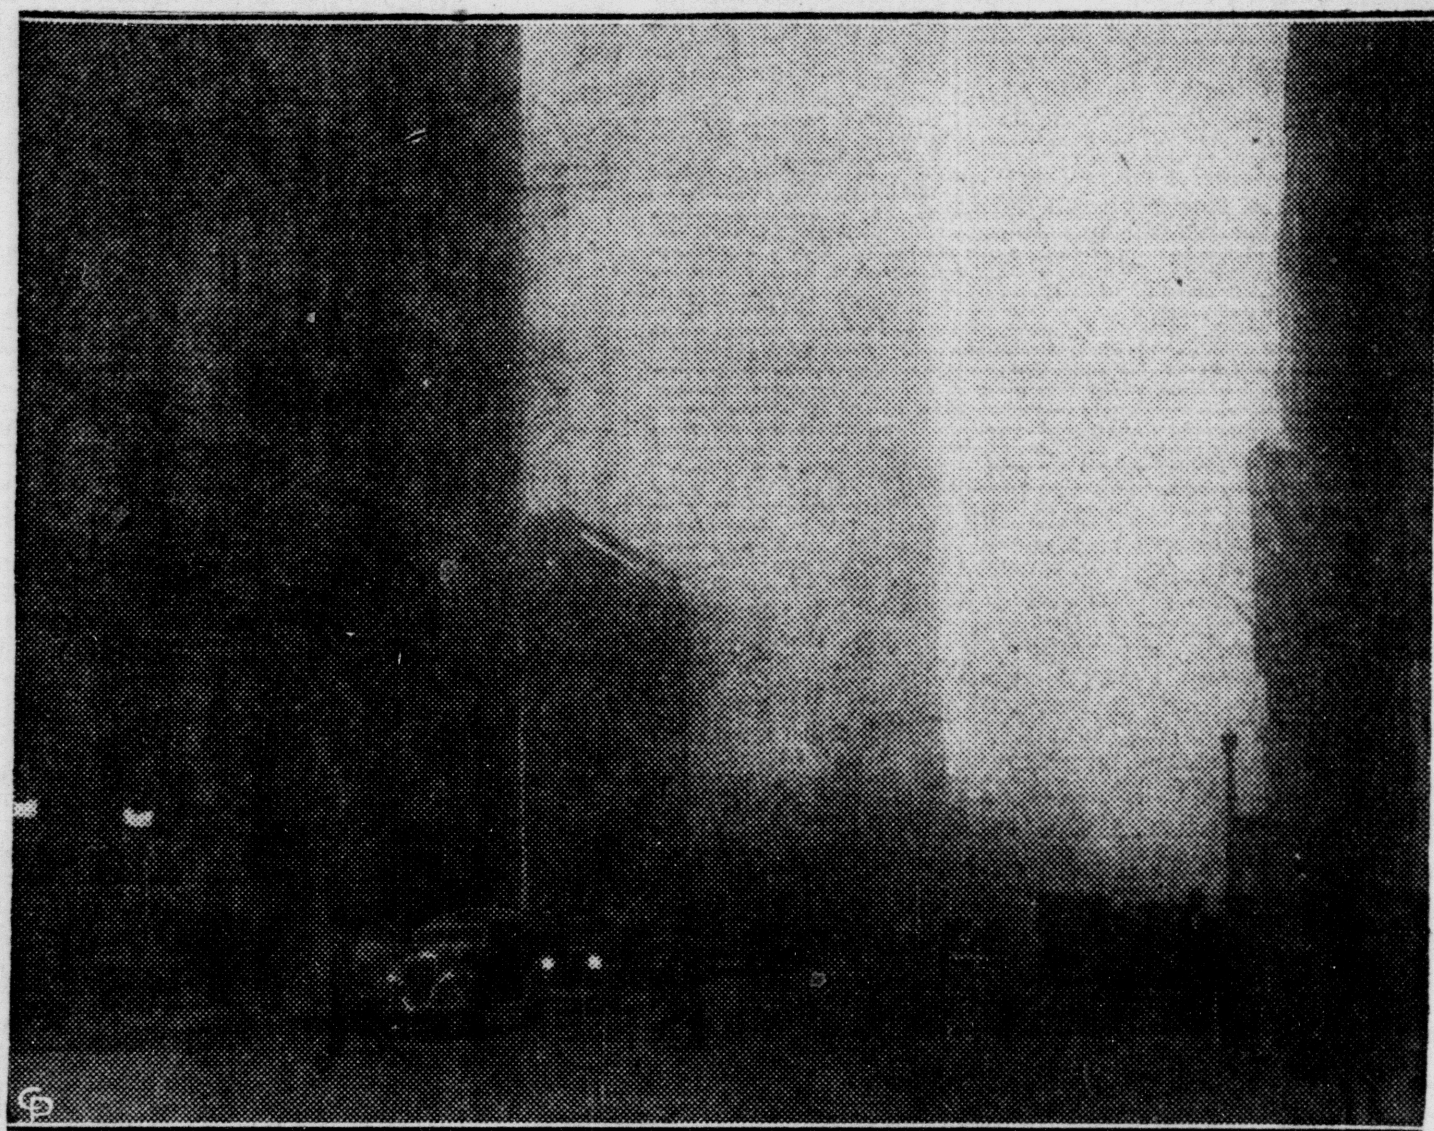

**OWEN PENFIELD FOX**  
Most impressive services have been arranged for the New Castle and Lawrence county church tomorrow in observance of Palm Sunday. Practically all of the churches are preparing elaborate programs to be presented a week from Sunday, Easter day.

Monday morning is the day the fishermen of Lawrence county have been waiting for. It marks the opening of another trout fishing season and probably hundreds of fishermen will be out early, if weather conditions are inviting.

STRESA, Italy, April 13.—Germany will be invited to sit down at the Allies' conference table as their full and unqualified equal after the League of Nations has met and gone through the formality of delivering a rebuke to the Reich for violating the treaty of Versailles.

Premier Benito Mussolini will be chairman of the new conference, to be held at Rome probably between the twentieth and thirtieth of May.

**Decision Of Parley**  
This was the decision of the Stresa conference today as the delegates of France, Britain and Italy met under brilliant sunshine which seemed to symbolize happy result of the meeting which began under overhanging misty skies and for two days threatened to end in nothing but a fog of political disagreement.

The only important question left open now in connection with the new conference is when to make official announcement it will be called. Your correspondent's information comes from the highest authorities, but without permission to call it official. This probably is because there is one embarrassing aspect to publicly announcing now an invitation to Germany to attend the new conference.

Germany is being hailed before the League council to answer for her sins. It is felt it would look a little odd to ask her to join the league.

### MONOGAHELA HOUSE WILL BE TORN DOWN

(International News Service)  
PITTSBURGH, April 13.—The Monogahela House, 95-year-old Pittsburgh landmark, passed into oblivion today.

Registration of guests at the hotel from whose balcony President Abraham Lincoln spoke, ceased this morning. On May 1 the building, whose guests have included presidents and men prominent in all walks of life, will be razed and the site will be used as a parking lot.

(Special To The News)  
BEVERLY HILLS, Cal., April 13.—Among my mail this morning was a telegram marked urgent. It says: "The Democratic postmasters of Los Angeles county are getting together." It says very specifically that it's the "Democratic" postmasters. I would love to see a dinner given by the Republican postmasters. I think these boys are kinder getting together to draw up ways and means of prolonging their stay. You see their employment calls for four years (with an option). Well, I think it's this option that they want a little rough and tumble advice from me on. I am suggesting that they deliver no mail to anyone of Republican faith. Why should hard working deserving Democrats take up their valuable time handing out what is no doubt anti-Democratic propaganda? And I am so advising 'em.

### Woman Is Found Dead This Morning

### Mrs. May Henry, Of South Side, Found In Bath Room In Bleakley Block

Mrs. May Henry, aged 49 years, of 114 West Big Run street, was found dead in a bath room in the Bleakley Block at 7:30 o'clock this morning by Police Officer U. G. Harper and Lew Diamond, custodian of the building. Death was thought likely due to an overdose of drug, Coroner Orville Potter reported.

Mr. Diamond noticed the woman in the building last evening and thought she might be intoxicated, so he did not investigate further. This morning, the door to the bathroom was found locked, and looking through the transom, he noticed her body on the floor. He summoned the policeman, who broke in the door. Death had evidently occurred some time during the night.

Mrs. Henry is survived by her mother, Mrs. Mary Lancaster, of Wampum R. D. 2; three brothers, Roy Lancaster, of Wampum, Frank and George Lancaster, of Youngstown, O., and one sister, Mrs. Margaret Foy, of Sharon. The body has been taken to the Ritchie Funeral home, and will be removed to the home of her mother, Mrs. Mary Lancaster, Wampum R. D. 2 Sunday morning. Funeral services will be held from that residence Monday afternoon at 2:30 o'clock. Interment will be made in Clinton cemetery.

### School Contests Are Concluded

### District Eliminations Are Ended With Performances Today

### MANY SCHOOLS SHARE AWARDS

Their spirited, two-day competition ended, student contestants in the annual Northwestern Music and Forensic contest were returning this afternoon to their homes in six northern counties.

Shortly after the noon hour the final events of the sectional elimination begun Friday morning, came to a close. At four city school buildings and in one church, the Highland U. P., the concluding competition, mostly events of a solo nature, was held this morning.

Contests were staged at Senior high school, at Ben Franklin and George Washington Junior high schools and at the Arthur McGill school. While the contests of today drew smaller audiences than the larger orchestral and choral eliminations of yesterday, groups of residents were present in all of the auditoriums to hear the visitors in competition.

**Band And Orchestra Contests**  
The highlight of the sectional meet came last night in the Ben Franklin Junior high auditorium when New Castle's band and orchestra won first honors in the Class A division contests with Grove City. In others of the solo and ensemble (Continued On Page Two)

(International News Service)  
BALTIMORE, April 13.—Investigation of the crash in which a bus was demolished and 14 high school students killed Thursday night at Rockville, Md., by one of its crack flyers was begun by the Baltimore and Ohio railroad here today.

Opening the probe, C. W. Gallo-way, a vice president of the road, said that standard safety signals were in operation at the Rockville grade crossing at the time of the accident. Asked to appear at today's hearing were J. A. Shewbridge, engineer of the train; J. A. Compton, conductor; W. F. Basse, fireman and Edward L. ### See Moves To End State Legislative Tangle Next Week

By G. EVERETT DOYING  
International News Service Staff

HARRISBURG, April 13.—Moved to end the Legislative jam on taxation and relief today were expected to come next week.

"The 'break' which would start the embattled administration and Republican-controlled senate toward solution of fiscal problems, it was believed, will come with the announcement of a senate substitute program for Gov. George H. Earle's \$203,000,000 tax plan.

Indications of this developed from both factors in the deadlock on the heels of the flat assertion from federal authorities that "Pennsylvania and the PERA have come to a parting of the ways."

**Compromise Conferences Planned**  
Both sides expressed conviction that the federal ultimatum bore an air of finality. With relief funds available only until the end of next week, plans to bring the situation to a head in compromise conferences were drafted.

Governor Earle, speaking personally for the first time, declared "The minute the Republican senate announced a program" he would call leaders to his office for compromise talks in an effort to reach middle ground acceptable to the administration and to Republicans.

G. O. P. leaders expressed assurance that the long-delayed substitute program being fitted together by the senate majority would be revealed next week. Senator Clarence J. Buckman, Bucks Republican floor leader, was one of those coinciding with this view.

**Near Arbitration**  
Further indication that the two parties were nearing arbitration of the month-long dispute was read into the action of the State Relief Board in calling upon the Legislature to "pass adequate tax legislation" next week to continue the flow of federal funds.

The resolution to the Legislature was offered by Democratic Speaker Wilson G. Sarig, Berks, seconded by State Treasurer Charles A. Waters, Republican, and passed unanimously. Waters has been active in assisting Republican senators make careful studies of the budget in their efforts to develop an alternate program.

Five judges of the Superior court, one judge and attorneys from neighboring counties, and the president of the Pennsylvania State Bar association were honor guests at the annual banquet of the Lawrence County Bar association, held at the New Castle field club last night.

Visiting jurists of the Superior court were Chief Justice William H. Keller, Jesse E. B. Cunningham, Joseph Stadfield, Chester H. Rhodes and William M. Parker. Two others, Judges James and Baldrige, were unable to be present and sent their regrets.

The only visiting jurist from surrounding counties was Judge John Wilson of Butler county. However, the bar of Butler, Beaver and Mercer counties was well represented. Forest G. Moorhead, president of the State Bar association, completed the list of visitors.

### A STRANGE TALE

Kept apart 24 years by circumstances of adoption, Henry E. Walters and Clara May David, orphaned twins, are pictured as they were reunited in Cleveland. Henry became so curious when informed that he was a twin that he determined to find his sister. Both lived in Cleveland, but neither ever had met the other. The separation was caused when in error the orphanage had listed the boy baby as having died. Instead, he had, in error again, been adopted by a different family, although the family that had adopted the girl baby had desired the boy twin also.

### Bill Authorizes Huge Increase Of HOLC Fund

(International News Service)  
WASHINGTON, April 13.—President Roosevelt today was about to receive from congress a bill authorizing the borrowing of another \$1,750,000,000 by the Home Owners Loan Corporation for the purpose of continuing federal loans to distressed home buyers.

Passed by the house a month ago, the bill was approved by the senate yesterday without a record vote. When endorsed by the president, the new legislation will increase the corporation's borrowing limit from \$3,000,000,000 to \$4,750,000,000.

This expansion to HOLC resources, to be accomplished by bond issue, will be the second since the agency came into existence in June, 1933.

Meanwhile retirement of James A. Moffett as federal housing administrator was believed imminent. Reports were current he would tender his resignation to President Roosevelt within the next few days.

Although admitting he was contemplating retirement, Moffett said "there is not anything definite yet." He added, however, he had been planning for some time to return to private business.

### Grade Crossing Plans Outlined

(International News Service)  
WASHINGTON, April 13.—Using estimates prepared by the Federal bureau of public roads, a tentative table was worked out today revealing just how much each state may get from the \$200,000,000 which President Roosevelt has indicated will be allotted for grade crossing work.

There is of course, a possibility that some of these may be changed as a result of the president's announcement that he wanted much of the money spent in or near cities, where traffic is heavy. In the main, however, officials have voiced the opinion this table would be adhered to fairly strictly. It includes: Pennsylvania, \$11,802,000.

### Tax Millage For School Purposes Fixed By Board

Same Rate As For Several  
Years Past, 15 Mills, Is  
Set For Year

### BUDGET FIGURES ALSO COMPILED

### Financial Situation Outcome Depends On Action By State Legislature

Despite the fact that the General Assembly has given no indication yet as to what it will do in the way of school relief, the New Castle School Board adopted its budget Friday night, April 12, and set the tax levy at 15 mills, for the coming year. That is the same millage as has prevailed for the past two years.

The total of the budget's estimated income and expenditure is \$993,100, a cut of about \$225,000 over what it was a few years ago. Of this amount approximately \$600,000 represents salaries of teachers, janitors and general staff. These salaries are based on 85 per cent of the Edmonds Act schedule for 1932 which is the schedule under which salaries have been paid in the past two years.

**Needs Legislation**  
In the session of 1933 of the General Assembly, boards were permitted to cut ten per cent off salaries with another deduction permitted by the State Superintendent. New Castle has operated under this 85 per cent legislation. However the law of 1933 applied only for the biennium following and expires on June 1. Unless it is passed again for the coming biennium, the local school board will be faced with the necessity of making up about \$130,000 in salaries alone.

In addition, the school subsidy is to be considered. For many years the board has been receiving \$350 per teacher from the state. This is down about \$18,000 for the present year and there is no guarantee that the board will receive the total amount this year. The budget is based on the \$350 figure and here again there is a possibility that the board will be "out on a limb."

Actually the budget as adopted on Friday night is largely a ten- (Continued On Page Two)

# PLAN BATTLE IN DUST STORM AREA

## Will Use 40,000 CCC Men On Job

Many New Camps To Be Established In Midwest District

## SOIL EXPERTS TO DIRECT PROGRAM

By EDWARD B. LOCKETT  
International News Service Staff Correspondent

(Copyright, 1935, by International News Service)  
WASHINGTON, April 13.—President Roosevelt plans to throw an army of 40,000 CCC workers into the battle against dust storms and land ravages this summer.

Already 20,000 of the civilian conservation corps men are located in 200 camps within the area over which the disastrous storms have swept recently.

When CCC personnel is doubled, under the newly expanded program the President has dreamed, 200 of the new camps, averaging 200 men to a camp, be located within the danger zone.

This step marked completion of the planning stage for soil erosion work designed to reclaim land that the dust blizzards have not entirely covered with sand and made useless.

Soil Experts To Direct  
Over the army of conservation corps men, directing their activities and training them, will be between 800 and 900 soil erosion experts in the soil erosion bureau of the Agriculture Department, headed by Chief H. H. Bennett.

With this equipment Mr. Roosevelt will make war not only on the immediate emergency caused by the present and recent storms, but will try to lay down a farm land bulwark that will resist the high winds which pick up topsoil in the future.

According to reports constantly coming into Bennett's office here, there will be plenty of work for an army even larger than the 40,000 contemplated. Latest advances have not yet given a clear picture of the damages wrought by the dust which has been whipping over the Southwest during the past several days.

\$723,826 listed. From the \$5 per capita tax on 22,984 taxables, another \$114,920 is estimated. From the state appropriation \$117,950 is estimated. From the proposed refunding of bonds, \$60,000 is estimated. From Vocational Appropriation \$2604. From tuition, \$18,000. From sales, rentals, etc., \$2500 and to all this \$123,300 is estimated as coming from delinquent taxes. From this grand total of \$1,163,300 must be deducted an estimated \$200,000 for the filing of delinquent taxes on real estate.

It was necessary to get a budget presented and the tax levy adopted in order to get tax cards out to the taxpayers. This is already over a month behind the usual date, the board having held up for action by the General Assembly. None has been forthcoming and the board went ahead and passed one in faith that something will be done. If it isn't then it is going to be a delicate position.

## GERMANY WILL BE INVITED TO ALLIES' PARLEY

(Continued From Page One)  
lies in a conference while she is still in theory a criminal in the dock.

**Delay Announcement**  
So the time for making the announcement is still under debate and there is even a possibility it may not be made until after Geneva.

By its decision, the conference has agreed upon a moderate course with Germany. Hitler himself, by deciding yesterday that he is willing to agree to multi-lateral pacts of non-aggression even if the other members agree to support each other against an aggressor, was a hint from the Fuehrer he would like to talk and the conference's decision was the allies' prompt reaction.

Most important, however, was the conference agreement to treat Germany gently at the League session called to hear the French protest against violation of the Treaty of Versailles.

**League Action To Be Mild**  
Instead of charging her as a criminal nation, which was the initial idea behind the French protest, it is now plain that the League will let Germany off with something like a mild reproof.

At the same time, the League will breathe fire and brimstone against any future violators of the treaty. Extremely interesting was the fact the new conference will admit all neighbors of Austria because this also brings Hungary into the scene. Hungary too is one of the defeated central powers suffering from a treaty imposed upon her and claims the same right Germany took to rearm and be treated as an equal.

But Hungary's Little Entente neighbors have sworn they would invade Hungary if she rearms. This topic was today discussed in Stresa at the conference and the decision to invite all the neighbors of Austria was the result. Logically, then, the invitation ought to include Bulgaria.

**Germany Will Accept**  
Berlin, April 13.—Germany will accept an invitation to attend the proposed international conference at Rome at the end of May, International News Service was informed by authoritative government sources today.

Germany, it was said, has long expected convocation of a conference of Europe's leading powers to negotiate a collective non-aggression pact with the French-sponsored mutual assistance clause deleted, at least so far as the Reich is concerned.

This news the Stresa conference had decided to call such a parley was regarded in Berlin as a turning point in European history, constituting automatic recognition of Germany equality since the Reich will be seated at the same table as the other powers.

Prior to news of the Rome conference, a foreign office spokesman had said: "Stresa in general has turned to Hitler, and has accepted his proposal."

"The collective non-aggression suggestion is the result of recent discussions between Reichsfuehrer Hitler and British Foreign Secretary Sir John Simon.

"Our quick reply to Simon's question (as to whether a non-aggression pact without the mutual assistance clause was suitable to Germany) is ample proof of Germany's readiness to join in any sincere peace effort."

## Hope To Avert Rubber Strike

Union Leaders and Administration Officials Hold Long Conference

(International News Service)  
WASHINGTON, April 13.—Following a conference with union leaders that lasted far into the night, administration officials were hopeful today a settlement might be announced before nightfall that would avert the threatened strike in the rubber industry.

Secretary of Labor Perkins conferred with the union leaders until after midnight over proposals put forward by the manufacturers.

During a break in the conference, Madame Perkins said she was "very optimistic" over the possibility of a settlement today.

**May Hold Election.**  
The proposals were not made public, but Perkins said that among other things being discussed was the possibility of holding an employees election at the Goodrich and Firestone plants without withdrawal by the companies of their appeal to the courts to review the labor board's election orders.

The refusal of the Goodrich and Firestone companies to permit the labor relations board to hold these elections was one of the fundamental issues of the dispute.

## Farm Interest Rates Slashed

(International News Service)  
WASHINGTON, April 13.—The congressional jam over farm relief legislation was broken today when administration leaders yielded to a compromise slashing farm interest rates \$36,000,000 on \$1,800,000,000 of loans.

The measure has been in a deadlock for weeks following the senate's adoption, over white house protests, of the Wheeler amendment to the farm credit act cutting interest rates from 4 1/2 to 3 1/2 per cent.

Under the compromise, the interest rate will be slashed to 3 1/2 per cent for one year, and to four per cent for the next two years.

## AUTOPSY RESULT SHOWS DROWNING CAUSE OF DEATH

(Continued From Page One)  
rivers were scanned and hospitals in nearby cities were also queried, in the belief that he had been taken ill or had temporarily lost his memory.

Thursday afternoon Wolfe fished in a hole in the Shenango river which is opposite North street. The hole is deep and favored by swimmers during summer. He threw in his line, which was weighted down with sinkers. It appeared to be snagged and the line broke. On Friday afternoon he went fishing there again. He was accompanied on this fishing trip by William Reese, a youth of North Shenango street.

He attempted to pull in his line, but found it had snagged. He then saw what appeared to be an elbow and the body turned over as it rose to the surface. His line broke again and he sent in a call to the city police and a radio call was sent out to cruiser cars.

**Recover Body**  
Chief of Police John F. Haven, Detectives John Moore and C. C. Horner went to the scene in the cruiser car driven by Officer Harry Flinner. Chief Haven threw out the fishing line and hooked the body and again the line broke. On the second attempt he towed the body to shore, where Detective Moore placed it on the embankment. Identification was established and Coroner Orville Potter had the body taken to a morgue.

A search of the clothing found Mr. Dinsmore's wallet with \$24.79 in it, keys, cards, spectacles, stickpin and ring. Apparently some other fisherman aside from Wolfe had hooked the body, as four fish hooks were found in the clothes.

When Mr. Dinsmore was first missed it was reported that he had a large amount of money on him. Later it was established that he had banked his salary, all but \$35, and apparently had spent some of that before the accident.

A reward of \$100 was offered by his sons, Marvin and Jack, several days after his disappearance, which would lead to the discovery of their father, alive or dead. According to Wolfe, the body was the fourth that he has located while fishing. All of the others were found in localities other than New Castle.

**Private Funeral**  
Private funeral services were conducted at two o'clock this afternoon in the Offutt funeral home, and interment was made in Oak Park cemetery.

Mr. Dinsmore was the son of Alfred T. and Sarah J. McNickle Dinsmore, and was born on July 9, 1872. He leaves two sons, Marvin Bell Dinsmore, of Neshannock township, and John A. Dinsmore, of New Castle; one brother, A. M. Dinsmore, of New Castle, and one sister, Miss May L. Dinsmore, of East Brook.

## FIVE JUDGES OF SUPERIOR COURT BANQUET GUESTS

(Continued From Page One)

turkey served at long rows of tables in the main auditorium, and lastly the speeches.

Attorney Rufus McKinley, president of the Lawrence County Bar association, opened the literary features, beginning by calling attention to the older and younger members of the bar, and commenting on the constant change in personnel. This is a universe of law, he contended. If it were not so, men would not be able to unveil its secrets, nor harness its power. For more years than anybody knows this universe has functioned perfectly. So we may say that it is a universe of law. We cannot conceive of it any other way. But in this universe man is the only animal that thinks, so he has decided that his thinking must be directed by law. So we have inflicted upon us courts, judges, lawyers, jails, penitentiaries, the electric chair, state legislatures and congress.

The laws which we have are based on the wisdom of men who have preceded us. They are not perfect laws, but they are necessary laws. It would be impossible for us to get along without these laws. The law does not exist in one man, nor in many, but all help to maintain certain principles.

**Muse Toastmaster.**  
The speaker concluded by introducing Attorney George W. Muse, the toastmaster of the evening. Mr. Muse was in an unusually happy vein, and made quite a hit in introducing the different speakers. Attorney Wylie McCaslin was the first speaker. He dwelt largely on the psychology of "fear," showing how it is the bottom of the present depression. He claimed that there has been a tendency on the part of the public to develop both loose and light thinking. People do not think problems through to a conclusion. He believed it was the duty of members of the bar to help in developing honest and clear thinking. No army is defeated as long as it has its flags and banners flying. Virtue has not departed from the earth, neither has statesmanship. There are still millions of people who think right, just as much as ever. What we want to adopt is an attitude of hopefulness, courage and cheer in our thinking, in our writing and in our conversation. This alone will bring us out of the depression.

**Tells How Court Works.**  
Hon. Jesse E. B. Cunningham, judge of the superior court, gave an account of how the court works. He first gave young attorneys some pointers on how to prepare their cases. He stressed the fact that the attorney presenting a case should always give a brief synopsis of what it is about.

All of the judges hear the argu-

ments. Then they go into conference. All express their opinions on a case and a vote is taken on which side will be affirmed or refused. After there is an agreement on this one of the judges is assigned to write the opinion. Even after this is done it may sometimes be changed.

Hon. Forest G. Moorhead, president of the State Bar association, gave a brief talk in which he outlined the advantages of belonging to the association. His remarks were of interest only to members of the bar.

**Features of Evening.**  
Among the features of the evening by a solo by Mrs. Gula B. Keagy, with E. E. Brandster as accompanist. Mrs. Keagy was compelled to respond to an encore.

Prothonotary Ralph Campbell was asked to stand up in order that all the lawyers of surrounding counties might see an official who has served the county faithfully for over 51 years.

Eight attorneys, with 14 assistants, did the turkey carving. Thomas W. Dickey was styled carver-in-chief.

The general committee having charge of the affair was composed of Clarence Patterson, chairman; Roy M. Jamison, William J. Caldwell, Mont L. Alley and R. W. Humphrey.

Committee on arrangements—Roy

M. Jamison, chairman; Robert L. Wallace, A. M. Shumaker.

Reception committee—William J. Caldwell, chairman; Rufus McKinley, J. Norman Martin, W. Walter Braham, Robert White, Thomas W. Dickey, Wylie McCaslin, George W. Muse, John P. Lockhart and Charles H. Young.

Program committee—R. W. Humphrey, chairman; Gilbert E. Long and William D. Cobau.

Ticket committee—Mont L. Alley, chairman; Joseph R. McPate, Hugh D. Graham, Frank O. Moretti, Kenneth McLure and Allen D. Keller.

County officials were in attendance.

## NO STRANGER

"I hear you are getting married," said Mrs. Newrich.  
"Yes," replied Martha, the maid.  
"Not to that young fellow who's been calling on you lately?"  
"Yes, ma'am, he's the one."  
"But you have known him only two or three weeks."  
"Well, it isn't as if he was a new fellow. A girl I know was engaged to him for quite a long time."

## BOOK REVIEW FEATURES ADVERSE-I-TEA EVENT

Mrs. Carrie Jeffery Roberts, one of New Castle's prominent and cultured women, won new laurels for herself Friday evening when she reviewed Hervey Allen's much discussed novel, "Adverse," for a large group of perhaps 250 people in the first U. New Group At Monday's  
P. T. A. Program

A musical treat is in store for the residents of the Volant community when Lawrence county's civic orchestra appears there on Monday, April 15. According to S. G. McCracken, principal of the Volant schools, plans have been completed with E. R. Patterson of the E. E. R. for presenting this body of musical talent on that date.

Anticipating a capacity audience, the concert will be given in the Presbyterian church. The program will include classical, popular and novelty numbers. The presentation will begin at 8 o'clock and is approximately an hour and a half in length.

This program is being given in conjunction with the April meeting of the Volant Parent-Teacher association. A business meeting of that organization will follow the concert when officers for next year will be elected.

# An APPRECIATION

Our decision to enter New Castle, and the territory it serves, with a modern high quality dry cleaning service; was prompted by the belief that the people of New Castle would appreciate and patronize a service such as we render.

The large number of people who patronized our service during our introductory special, and the favorable comments made by them, justify our decision.

We endeavor at all times to merit the patronage of that great class of people who demand quality—the cardinal principle of the White Swan organization.

### STATE TROUT SEASON OPENING

Heavy spring stocking, ideal water conditions, and an abundance of hard-surfaced roads—a combination of circumstances—bring predictions of banner trout fishing in Pennsylvania this year.

The season, which opens on April 15, finds two departments of the state government anxious that every tyro trout fisherman or veteran nimrod makes the most of his opportunity.

The first commission reports an all-time stocking record of legal-sized brook, brown and rainbow trout during 1934. In addition, the commission has carried out a heavy spring stocking program of legal-sized fish.

The highway department, with an eye to the needs of state fishermen as well as farmers and travellers, has developed the highway system to such an extent that hard-surfaced roads tap nearly every fishing area.

There need be no occasion for traffic jams, either on favorite trout streams or on the highways which lead to them. Many fishing areas hitherto inaccessible can now be reached with comfort and with reasonable speed through extension and improvement of hard-surfaced roads.

Pennsylvania has 25,000 miles of all-year round surfaced highways and every county has its quota, and every famous fishing region its share.

During 1934, the fish commission released 985,906 brook trout ranging in size from six to twelve inches in approved trout waters of the state. A total of 327,866 brown trout from six to twelve inches, and 2,125 adult rainbow trout from eleven to twelve inches have also been released.

Reports from wardens in trout sections indicate that almost without exception trout stock last year wintered exceedingly well, and if water conditions are anywhere near right on opening day, anglers should enjoy the best sport in the past ten years.

### FLORIDA UP AND COMING

Florida, it will be recalled, blazed the way for the depression. When the great boom collapsed and fortunes, mostly on paper, were swept away, the nation was given its first realization of the ethereal character of our prosperity. Fears were confirmed shortly afterward by the swift descent of the stock market to levels never known before. Then the cracking-up process became general.

But Florida is rising from the ashes. During the season just closing the tourists brought to the state's resorts \$625,000,000 worth of business. Nearly two million visitors were entertained and the winter, on the whole, was the best since the boom days of 1925-26.

This news is important not only to Florida, which for a time was a place of desolation, with the tragic remnants of departed prosperity visible on every side, but also to the country as a whole. Because, after all, Florida's progress is dependent upon business conditions generally throughout the country and, in consequence, the return of happy days may properly be interpreted as an authentic sign that the country as a whole is looking up.

### ROOM ENOUGH FOR BOTH

Fortunately the Pacific is a very big ocean, nearly twice as wide as the Atlantic and plenty large enough for the fleets of the United States and Japan to maneuver without coming within several days' run of each other.

There is no need for any provocation provided sensible precautions are taken, although the wisdom of our holding the maneuvers in the Hawaii-Alaska-Puget Sound triangle at this time may be questioned. For this reason the steps taken by the navy to preserve an atmosphere of good will must be approved. It has been announced that the maneuvers will not be allowed to come within 2,000 miles of Japanese territory. Admiral Upham, commander of the Asiatic fleet, will visit Yokohama on a good will mission the day the maneuvers begin. The American and Japanese fleets will not hold their maneuvers simultaneously.

This should go a long way toward preventing the rise of unfriendly feeling or unpleasant incidents. Both countries can play in the Pacific as long as they keep out of each other's backyard. Neither country has any intention of attacking the other's territory. Both know the great expanse of water is better than a wall between them. Let them keep within bounds and avoid even the appearance of provocation.

### WARNING TO FRANCE

Secretary Hull is ruthless in his campaign to bring about a return to what he calls "economic sanity." That he plays no favorites is shown by his warning to France that it must discontinue discrimination against American imports or the United States will scratch its name from the list of nations entitled to most-favored-nations treatment. At the same time four other nations—Denmark, Portugal, Germany and Italy—are told they will be given the same dose unless they abandon practices the state department regards as discriminatory. The benefits of the new Belgian trade agreement will be allowed them until present agreements or treaties are terminated.

The principle of equal treatment has formed an integral part of the trade policy of the United States from time out of mind. It was reasserted at the London Economic Conference and at the seventh International Conference of American States. The benefits of the reciprocal trade treaties the state department is now negotiating are extended to other nations which do not practice discrimination. It is the new treaty with Belgium that has furnished occasion for Secretary Hull's warning.

Negotiations for new treaties with France, Italy and Germany have been proceeding in a rather desultory way; the warning is intended to quicken them. What immediate results can be expected, particularly from Germany, is uncertain. Germany has discriminated against American bondholders because an unfavorable trade balance has left us unable to compel equal treatment as Britain and France could do. So Germany has had to barter with other nations for needed raw materials which she would prefer to buy here. Perhaps the nation that can find money to rearm itself heavily will find a way to scrape up the money to treat the American bondholders equally.

Fishermen off Florida fought a great fish six hours but do not mention the kind. Entering into the spirit of the occasion, we'll help out by stating that it was a whale.

### DO WOMEN STAND PAIN BETTER THAN MEN?

I THINK they do.

Can I prove it? I think so. I can prove it to myself, anyway.

Little things indicate to me that women stand pain better than the men. . . . A man picks up a hot plate—and drops it. His pain is more important to him than the plate. A woman picks up a plate that is just as hot—and hangs onto it. She does not feel the pain as much, a man reports, but my own opinion is that a woman doesn't see why she should drop a good plate just because it is hot.

A man cuts his finger and rushes into the house to disinfect it and to imagine all sorts of terrible things from blood poisoning to lockjaw. A woman, more often than not, bandages her finger, too, but not until she has the children's dinner ready. If a man doesn't feel well, nine out of ten times the entire family knows it. He tells them and demands attention. And if he doesn't get it, he feels abused. (I write this, even while I remember how bravely some men I knew endured suffering during the war.)

But if a woman wakes in the morning so sick that she doesn't see how she'll ever get out of bed, she gets up anyway. She drags herself about the house, insisting that she has better thing to do than stay in bed. And sometimes it's days before the rest of the family realizes that mother was terribly sick one day last week. (I write this even though doctors' nurses and hospital nurses have told me women are more trouble than men. . . . When a woman finally goes to a doctor or into a hospital she was the attentions she is paying for.)

When I say men fuss about pain, I do not mean all men; and when I say that most women endure pain without complaint, I do not mean all women. There are men who grit their teeth in silence; there are women who selfishly weep and whine. But men in general endure pain more noisily because they think about themselves more than women do. Men dread diseases that will kill them; women worry about diseases that are dangerous to children. . . . So they stand their own pain better than men do.

P. S. Well, mothers do!

### STORIES FOR MODERN CHILDREN

Shall I tell of a fairy who lived in a glen

In the shade of the lolly-pop tree  
Who could instantly change little boys into men

By feeding them honey and tea?  
Shall I tell of a princess shut up in a tower?

And in chorus the youngsters replied:  
"No, give us a story of action and power.

Give us islands where rum-runners hide!  
"Give us radio signals of 'calling all cars'!"

Give us raids on the river front  
Give us rocket ships shooting their way up to Mars

And heroes who fight for their lives.  
Let's have bandits who frequently shoot up a town

And gangsters who know they are tough.  
Let's have heroes who step up and smack a man down.

But none of your fairy tale stuff!"

I'm an old-fashioned fellow with old-fashioned ways  
Who fancied when children are small

It's for stories of ellins and goblins and fays  
And witches on broomsticks they call.

But with "once on a time," when I start, now they say:  
"Aw that stuff don't go any more!"

And I find to my shocking surprise and dismay  
They want murder and arson and gore.

### WAGGING TONGUES REQUIRE LITTLE START AND NO SUSTAINING EVIDENCE

Why be so ready to believe unfavorable reports about others?

Without first verifying, you begin to circulate rumors.

You may preface the tale by saying that you don't believe the gossip. But that statement does not hinder your anxiety to repeat the scandal.

In fact, if you are a close friend of the one being talked about, it gains impetus because you have mentioned it.

Less credence would be given if it were told by one less intimate.

It requires little to start wagging tongues and less to keep them going. Irreparable damage is done to the reputation of persons every day because of malicious or careless statements by those who should know better.

There may be circumstances which point to the tale you tell as being true, but more often it is an unfair conclusion drawn by someone who wants to create a little excitement.

Circumstantial evidence may be without any foundation truth.

You have had experiences in your own life when certain things indicated your guilt when you were perfectly innocent.

This should make you more careful about what you repeat.

But does it?

BEAUTY HINTS FOR MEN  
As a starter on the road to health and manly beauty, here are a few suggestions for our male readers:

1. Beating rugs is highly recommended to strengthen and beautify the arms and shoulders and make you alluring.

2. Pushing a lawnmower develops the muscles of the back. It is far less expensive than golf; it can be enjoyed right at home (unless the neighbors have borrowed the mower) and it requires no long practice or instruction.

3. Washing windows, both inside and out, is not only a fine muscle builder but it saves the cost of going to a manicurist.

4. Cleaning the furnace, taking out the ashes, hoeing the garden, sawing wood, slicking up the attic and doing the washing—all these little chores are highly beneficial for the physique.

5. Driving nails and fixing things around the house is also a splendid diversion—equal to anything found in a well equipped gymnasium.

6. A genuine pessimist can be almost happy if he has something real to worry about.

7. A psychologist reports that seventy per cent of everybody's dreams are unpleasant. Sleeping, in short, is not much better than being awake.

## Washington At A Glance

Why States Go Broke.  
Government Has Advantage.  
States Have Overspent.

Central Press  
Washington Bureau  
1900 S Street  
By CHARLES P. STEWART  
Central Press Staff Writer

WASHINGTON, April 13.—As spokesmen for their various states, the lawmakers on Capitol Hill who insist upon federal relief of unemployment in their respective commonwealths, on the ground that the commonwealths' own resources are exhausted, make one fairly convincing point.

At first thought their demand seems ridiculous.

If each and every individual state is so hard up (as most of them profess to be) that it can't relieve its local destitution, how can the 48 of them expect to relieve national destitution by joint action?

That is to say, if 48 men need \$1 apiece but have only 50 cents apiece, can they raise \$48 by a collection taken up from their total number? Pooh, pooh!—of course.

But this isn't quite the whole story.

"MANUFACTURING" MONEY  
The federal government can create dollars by the simple process of manufacturing them.

They may depreciate until they won't buy much, or maybe they will buy nothing at all, if the federal government manufacturers too many of them, but they'll be known as dollars.

No state government can run its own dollar factory.

It must depend, for its supply of cash, upon the taxation of federally manufactured dollars out of the hands of its local citizenry. If, by this method, it exhausts its citizenry's store of and income in them, it can seize property and try to auction it off at tax sale, but a citizenry which already is so poverty stricken as to be losing its property for taxes is unlikely to be in a position to do any appreciable amount of buying at tax sales.

STATES CAN "GO BROKE"  
A state government, then, really can "go broke," as to a circulating medium.

Uncle Sam's monetary capacity, however, practically is unlimited—as to quantity; not as to quality.

Uncle Samuel is not, to be sure, entirely dependent upon the crude printing press process of manufacturing more money. It not only can, but actually is actually was done in a far subtler fashion.

President Roosevelt manufactured (or authorized the manufacture of) approximately two billions in new dollars when, a few weeks ago, he announced, with congressional sanction, that gold was worth slightly in excess of 40 cents more than it had been. This meant that the treasury's gold hoard was worth 40 per cent more than the day before—consequently justifying a 40 per cent increase in the number of paper dollars issuable against it.

A state government, with its possible expenditures restricted absolutely to what it can get, has some

excuse for complaining that it can't compete with the expenditures of a central government whose income is so elastic.

FEDERAL GOVERNMENT'S "ADVANTAGE"  
This is not to argue that federal action in boosting the price of gold (thus reducing the weight of it back of each dollar) was otherwise than perfectly proper.

Nevertheless, no such instantaneous method of "sweetening up" its treasury is open to any state government. An inadequate state treasury hoard can not be added to by the short-cut system of saying so.

The federal government can do "more of the same," too.

It can continue, as long as congress and the president are acquiescent (and the supreme court surly likewise), to "hike" the recognized price of gold higher and higher—thus permitting the broadcasting of more and more paper dollars.

A NOT ILLOGICAL HOWL  
It is true, as all economists remark, that even the federal government can issue paper into the realm of the ridiculous—jeopardizing its own existence when the public grows tired enough of a money it must carry around in market baskets, as in early post-war Germany.

Still, in the meantime, it can "carry on," making its books balance—nominally.

State governments can not do it. Most of them have over-spent themselves, undoubtedly.

But, having done so, they immediately are "up against it."

Not so the federal government. If it over-spends itself, it can, for quite a while, keep going—by printing money or devaluing the dollar or some such device.

Hence the state's clamor that Uncle Sam must help them.

Their howl is not altogether illogical, so long as the money which alone can issue continues to be recognized as having a substantial buying power.

April 13, 1742—The first automobile news was published. The London Daily Advertiser carried a story about the first self-propelling vehicle of which there is record.

It was a machine brought from Switzerland by one August Pinchbeck, who proceeded to run it from Hampstead to Tottenham Court in less than 40 minutes without stirring up much excitement.

April 13, 1844—The most elaborate hoax in American journalistic history was perpetrated. The New York Sun published a fulsome account of an air journey made across the Atlantic to South Carolina by eight Englishmen, written by one Edgar Allan Poe.

It was quickly exposed, for when readers gave it a second thought, they knew an air voyage across the Atlantic was IMPOSSIBLE and always would be.

April 13, 1869—George Westinghouse, 23, received a patent on his first successful airbrake. Cornelius Vanderbilt of the New York Central, to whom it was first offered, guffawed at the idea of stopping a train of cars with a hose full of wind and told Westinghouse, "I have no time to waste on fools."

## Local Choirs Will Compete For Honors

### Mixed Chorus And Male Chorus Entering Competition At Warren, Ohio

Perhaps it is not generally known that New Castle will be represented by a mixed chorus and a male chorus at the big competition in the Ohio city of Warren Saturday, May 11. Representative choirs from Scranton, Wilkes-Barre, Pittsburgh, Bradock, several Ohio cities and four big choirs from Hamilton, Ontario, Canada, will compete for musical honors. The local choirs have been practicing faithfully twice a week for the past six weeks, and are now being trained to a fine edge by their efficient conductors.

The two choirs are representative of the whole city, as members are from every ward and almost every nationality. Many of the singers have not appeared in competition before, but singing alongside veterans of former contests, their rich young voices blend with the older to make a splendidly balanced choir. Miss Gladys Thomas, music instructor at the Mahoning public school is director of the male chorus, and William Richards has charge of the mixed chorus.

The male chorus may be heard in concert at the Central Presbyterian church on Sunday evening, April 28, when they will sing the competitive numbers. Soloist and duos and quartets will also feature the program.

On Saturday, April 13, the members of the mixed chorus will enjoy a banquet at 6 p. m. at the Emanuel Baptist church, East Reynolds street. A splendid program has also been arranged by the committee in charge.

When the latest books of the Old Testament were written, Hebrew, though still the language of literature, had been supplanted by Aramaic as the language of common life. All the evidence points to the fact that Aramaic was the language in which Jesus spoke His deathless words.

## Foxes And Camels Are Having Race

### Two Teams Of McKinney Bible Class Are Searching For New Members

As interesting as the traditional race of the hare and the tortoise, particularly to the members of the McKinney Bible class of the First Presbyterian Sunday school, is the race between the camels and the foxes, which started last Sunday, and will continue for the next several months. The securing of new members and the return of good standing of old members is the method of scoring. The winners will acquire the neckties of the losers.

George C. Fox is the leader of the foxes and Wyatt R. Campbell of the camels. The contest is the carefully worked out plan of President Harry Gibson and his membership committee, and it started coincidentally with the beginning of his second term as president, and also at the start of the pastorate of Dr. John J. ### Protest Against Increased Rates For Soft Coal

(International News Service)  
WASHINGTON, April 13.—Asserting that increased freight charges on bituminous coal and coke are contrary to the public interest and cannot be supported by the coal industry, the National Coal Association today petitioned the interstate commerce commission to reconsider its decision in the ten per cent rate increase case.

The commission recently denied the railroad's petition for a flat rate increase, but allowed emergency surcharges on certain commodities for one year.

The commission figured these emergency surcharges would net railroads about \$80,000,000. The coal association contends that about one-third of this increase has been saddled upon the coal industry, which ordinarily provides the railroads with one-third of their total tonnage and one-fifth of their total freight revenues.

### AROUND CITY HALL

Councilman Albert Hoyland today presented to Mrs. C. S. Royce, one of the directors of the New Castle public library, two volumes of annual reports which were compiled by Hoyland, who is finance director of the city. The volumes contain statistics covering years from 1920-1934, inclusive. The councilman had the reports bound at his own expense.

One of the bills received by the city from Sheriff Edward Pritchard amounts to \$556 and is for the care and keep of prisoners the city sent to the county jail.

New Castle Water company has been granted permits to extend mains which will run to booster tank to be built on the East Side. Extensions will be made to a main in William street between Long avenue and Arlington avenue; in an unnamed street between Gibson street and Wilson avenue and in Gibson street from an unnamed street to the water company's lot.

During council meeting in the mayor's office yesterday a large map had to be studied. The desk was not large enough so the map was laid on the floor. Within a minute or two Mayor Mayne and several councilmen got on their knees to scrutinize the map. Someone tossed a cent on the map and remarked: "Seben cum leben, baby needs new shoes."

Council convened as a board of revision yesterday and cut \$1,000 off the assessment of the Legion home's lot in the rear of the home. A request was also made that the assessment on the property of W. L. Patterson along the East Brook road be reduced. Two of the acres are in New Castle. Solicitor White pointed out that if the "mansion" is in any

district then that district is entitled to tax all the land. However, there is no house on the land. The assessment is \$200 and council refused to lower it.

Councilman Joseph D. Alexander today stated that if the person who broke a cement bench on public square can be located the person will be punished. In commenting on the alleged vandalism today he said he could not understand how the bench could have been broken unless someone deliberately broke it. Alexander also said that City Forester Owen Fox has been troubled by boys who have been ruining young trees in Laurel boulevard and various parks.

## Receives 132 Checks For Small Fire Loss

Co-Insurance Plan Brings Un-  
usual Situation In Settle-  
ment Of Loss Claim

Secretary of the School Board Hugh M. Marquis reported to the school board on Friday night, the receipt of 132 checks from fire insurance companies to cover a \$171.63 loss sustained recently in the Benjamin Franklin Junior High School. Some of the checks were as low as six cents and the highest was for \$637.

The reason for the multitude of checks is that the school properties are insured under the 80 per cent co-insurance clause. Under this arrangement all buildings are insured for 80 per cent of their value with the insurance being spread out over a lot of companies. When a fire loss is sustained each of the companies pays proportionate share of the loss.

The installation of this insurance phase some years ago has saved the school board many thousands of dollars.

## School Board Takes Stand On Some Legislation

Does Not Act On Measure To  
Abate Delinquent Tax  
Penalties

At the request of such organizations as the School Directors Association, the School Secretary's Association and the Department of public instruction the New Castle board went on record Friday night favoring certain legislation now before the General Assembly. Among it is the Deficiency Appropriation Bill which replaces the aid cut off the school subsidies in the present school year, the Emergency Bill of \$5,000,000 and the Appropriation bill which carries the school appropriations with it.

Two requests for co-operation were not acted upon. One was the bill which would permit the abatement of delinquent tax penalties, and the bill for consolidating schools of the fourth class districts. "I do not believe we should join in asking for the abatement of delinquent penalties," said A. C. Hyde. "If we abate the penalties what incentive is there for people to pay their taxes on time? It is unfair to the citizens who does pay his taxes."

"I take the opposite view of the situation," said J. H. McIlvenny. "If we can encourage people to pay delinquent taxes by knocking off a few penalties, then we should do it. We have a half million dollars in taxes filed against properties now and we certainly don't want to take the properties over. I think we ought to do everything we can to help the citizens who cannot pay his taxes on time. It is a Christian duty we owe."

Roy W. Hazen said he did not know what was contained in the bill and would not like to act upon it until he did know. The board decided to take no action upon this bill and also upon the consolidation bill for the reason that it would not affect New Castle.

The board also went on record as favoring the re-enactment of House Bill 48 of the session of 1933 which would permit the same reductions in salaries for the coming biennium.

## Only Grade A Coal For Schools

School Board Members Convinced Poor Economy To Buy Cheap Coal

In the future the New Castle school board is going to confine itself to buying grade A coal for the school boilers. In the list of requisitions approved Friday night there was one for a stoker grate for a boiler at a price of \$202.77.

When the requisition list was read, J. H. McIlvenny explained that this was needed because the bars had been burned out when second grade coal was used.

"Somebody exceeded their authority in getting second grade coal," said Mr. Hyde. "We ordered grade A coal at the time we placed the order."

"That's right," said Mr. McIlvenny, "but we wanted to find out whether or not the cheaper coal would be any savings. With the present grate bars it isn't, and unless we changed our grate bars we will have to continue using grade A coal. The experiment was tried to get some definite idea of what might be done. We are convinced now that it is poor economy to buy cheap coal."

## District Coming Here On June 25

## Business Men Organize Golf Circuit Here

Eight Teams Will Comprise  
New League, Walther President, McGovern Secretary

Business Men of New Castle will have a golf league here this summer. The league is a new one and is taking considerable interest. An organization meeting was held at the Y. M. C. A. last night with Charles "Bugs" Walther being named as president and J. J. McGovern as secretary. The league at the present time has six teams, with indications that the league will start May 14 with eight teams.

The league will operate without handicaps, the matches will be lined up even by the managers. There will be six men on a team, and a player list of 12 handed in by June 1, by each manager. Both Castle Hills and the Municipal courses will be utilized, the league splitting the business both ways.

Tuesday night was selected as the league night, by the managers last night. Nine holes will be played. The matches will be scored one point for a victory and a half-point for a deadlock. Any team found using men not eligible will forfeit that particular match. The league will play a split season with the winners of the first-half playing the winners of the second half.

The following teams were present last night: Independent Grocers, Russ Magill and C. W. Charlebois; A. & P. Stores, Shook and J. B. Flanagan; P. & O. Electric, Homer Gibson and Howard J. Warnock; Bell Telephone, J. J. McGovern and Ralph Davis; Bankers, Norman Buckingham and "Dutch" Laurel;

Music Is Good For You.  
We Still Love Titles.  
Dust Storms And Silver.  
Einstein Says Perhaps.

By ARTHUR BRISBANE

SEBRING, Fla., April 13.—THIS IS written traveling north from Miami to New York via White Sulphur Springs, West Virginia, and the advertiser's convention.

Hours spent profitably Wednesday night listening to the University of Miami quartet, two violins, viola and cello, playing Mozart, Beethoven and Grieg, with an admirable cello solo, "Du Bist Die Ruh," by M. Grassman. You may have as little real knowledge of worthwhile music as a Galapagos turtle has of differential calculus, yet profit by listening to good music.

THE MOST useful thing about Russian nobles and grand dukes, according to Erard Hermann, was their habit of maintaining, each in his castle, a capable string quartet and occasionally ordering quartet music from Beethoven and other great musicians, in need of employment.

If imitation nobles and grand dukes that frequent Palm Beach and other expensive resorts in this neighborhood would engage Mr. Foster's quartet from the Miami University to play for them after dinner, and listen attentively, they would find that a great improvement on backgammon.

PRESIDENT ROOSEVELT, happy with his "anti-depression" fund of \$4,880,000,000, believes it will be enough to end the depression. He hopes to turn some money back into the Treasury.

Looking toward the Northwest, however, where scores of families are fleeing in grimy wagons and automobiles from devastating dust storms, the President may find use for all money left over and more.

Oklahoma, Kansas, Colorado, parts of New Mexico, Nebraska, Texas and Missouri, suffering from dust storms that have damaged crops and livestock, could all use some of the eighty millions.

IN THE excitement of our revolution, the real ones of 1776 and afterward, this country got rid of kings, dukes, lords and primogeniture, tying up estates forever, but we did not lose our love of titles.

We have "money kings," all sorts of preposterous "grand potentates" in various societies for men, and even among women, plain "Mrs." or "Miss" is not enough.

Ladies now assembled in this state, reading "minutes," passing "resolutions," organizing ceremonial dinners, include "Matrons, Grand Matrons, Past Grand Matrons, Grand Ruth, Grand Esther, Grand Martha, Grand Electa and Grand Adah," whatever an Electa and Adah may be.

Gentlemen brought along perhaps to look after the dinner check are called "Grand Patron, Grand Wander and Grand Sentinel." And all these titles are used solemnly, as though by so many little children at play.

THE PRESIDENT has found a way, without spending any of his four billion eight hundred and eighty millions, to cut down depression for those that own good silver mines.

The President has raised the price of "newly mined silver" from sixty-four and a half cents to seventy-one cents an ounce. He could raise the silver price to one dollar an ounce and more, and that may happen.

THOSE THAT voted for William Jennings Bryan and were laughed at, may lift their heads and say: "Well, Bryan said you must not press down a golden crown of thorns on the brow of labor and President Roosevelt has lifted off those gold thorns."

"Also Bryan said that silver should be used as money on a basis of sixteen to one. President Roosevelt is getting toward that basis, and may do better, since nature's actual ratio of gold and silver is below thirteen to one."

"Also Bryan said that many things needed changing in our (Continued On Page Thirteen)

### Referee Stops Chicago Battle; Louis Winner

Roy Lazer, From New Jersey, Lasts But Three Rounds With Detroit Negro

By JOHN C. HOFFMAN  
International News Service Sports Writer

CHICAGO, April 13.—Joe Louis, 20 year old Detroit negro, loomed larger—much larger—on the heavy-weight fistic horizon today.

There was no doubt about that in the minds of Max Baer, the heavy-weight champion himself, and 18,000 goggle-eyed customers who saw the cat-like negro youth calmly transform Roy Lazer unshaven Peterson, N. J., upstart into a gory smear in the third round at the Chicago stadium last night.

**Max Baer Present**

They had to carry the pathetic figure of a youth, who had won 353 consecutive fights, to his corner after two minutes and 23 seconds of the third round. They almost dumped the bloody, unconscious form into the lap of the heavyweight champion who mixes flippancy with homicide.

It was a gruesome climax to a drama which featured the introduction of Baer to the assemblage before the main event and the spectacle of Louis' fourteenth knockout in 18 professional fights.

Waving his arms in the air and bobbing his head from one side to another during the first two rounds, Lazer didn't seem to be doing badly. But the finish was inevitable.

A right spun Lazer almost completely around as early as the first round, and before the bell could end it, Louis had measured his foe for a left which brought a flow of crimson over Lazer's left eye.

**Round Is Stopped**

The third round found Lazer consistently and once he sunk a plop-pling left into the pit of Louis' stomach. Then it happened. Feinting Lazer into a lead, Louis flashed a lethal left to his chin. It hurled the Jersey heavyweight heavily across the ring and left him horizontal.

Lazer was up at the count of nine, but as quickly down again. And before the butchery was called to a halt, he had taken two counts of nine and one of six. It was what the throng had come to see.

One advantage of telling the truth is that you don't have to remember what you said.

### HERE HE COMES! THERE HE GOES!

Gar Wood's Miss America X, hitting a clip faster than 100 miles an hour, flashes into view and fades quickly as the daring Detroit driver seeks a new record on the waters of Indian creek at Miami, Fla. Wood is trying to break his own world mark of 124.86 miles an hour, which he set in 1932.

### High School May Now Have "B" Teams

School Board Adds To Fund To Provide For Equipment

"B" football and basketball teams for the high school in addition to the varsity teams is more than a possibility for the coming school term, due to the insistence of Director J. Herbert McIlvenny at the board meeting Friday night that the appropriation for athletic supplies be increased.

When the budget was presented Mr. McIlvenny called attention to the \$382.12 set aside for athletic supplies for all the schools. "That is woefully insufficient," said Mr. McIlvenny. "You can't buy enough athletic supplies for the various schools out of that little money and give the boys and girls anything."

"I believe we are unfair to the youngsters who can't make the varsity football team when we do not provide physical education for them," said Mr. McIlvenny. "Why wouldn't it be possible to have a 'B' team for the lighter boys, and spread the athletic activities out on a wider range?"

"It would be possible if we had some money," said Mr. Woolcock. "We spend a lot of money on art," said Mr. McIlvenny, "and I believe it is just as important to give boys and girls such training as will give them sound bodies as it is to teach them to cut out paper dolls. I move that we add \$1000 to the athletic supply figures with the idea of installing 'B' teams."

Following the passage of this amendment, the matter of the high school band was brought before the board. The band uniforms are in sad shape at the present time and the board added \$300 to the budget for aid in getting band uniforms.

After living 29 years among lepers on Cullion island in the Philippines, Sister Calixta has returned to the St. Paul de Chartres at Eure et Loire in France. During the time she lived abroad she "helped to change the island of the living dead into an island of hope," remaining meanwhile untouched by the plague.

### THE SPORT PATROL

By JOHN J. MAKER, JR.

THE AMERICAN LEAGUE RACE

When the eight cities go to the post next Tuesday for the American league race, Cleveland and New York will rule as the favorites with Detroit and Boston also given a chance to come down the home stretch first. Those who like to fiddle with the long shots are selecting Philadelphia to win.

The Patrol's forecast lists the race to finish as follows:

1. New York Yankees.
2. Cleveland Indians.
3. Detroit Tigers.
4. Boston Red Sox.
5. Washington Senators.
6. Philadelphia Athletics.
7. St. Louis Browns.
8. Chicago Whitesox.

The Yankees have tremendous power on the mound which should make up for a few shortcomings in the outfield that may occasionally be troublesome. A large group of first-class hurlers are ready to turn on the heat and should provide well pitched games during the entire season. In the last two months of the campaign when the pressure is greatest and when double-headers are scheduled on sweltering afternoons, Joe McCarthy will be able to send out a well rested hurler on each occasion.

The Cleveland Indians have no major weakness on the team. Knickerbocker will be missed, of course, but he'll be back at short when he is needed most. Bradley's boys look quite snappy but in the clutch they will probably be unable to match the Yankees.

If the Tigers win again, they will have to go through another season unhampered by injuries. Their reserve power, particular in the infield, has not been strengthened to any great extent. Detroit was fortunate in being able to maintain the entire team as a unit over the season of 1934 and they need the same if they are to be in the thick of the pennant fight.

Boston possesses a group of colorful and star performers. The team, however, lacks balance, and the assorted collection of stars, rookies, and veterans gathered by Yawkey aren't likely to function smoothly enough to land higher than fourth.

It is difficult to say what the Senators have to offer since they probably don't know themselves. They never got fully organized last year and have faded but little better this spring. However, President Clark Griffith has added some youth to the aging roster which should pep up the team.

Connie Mack had an extremely youthful team in 1934 which he has altered very little except in the switch that has made a catcher out of Fox and the placing of Al Simmons on first. The young mound staff may be better than it was in 1934, but the mighty bludgeon of Fox will suffer under the strain of backstopping duties.

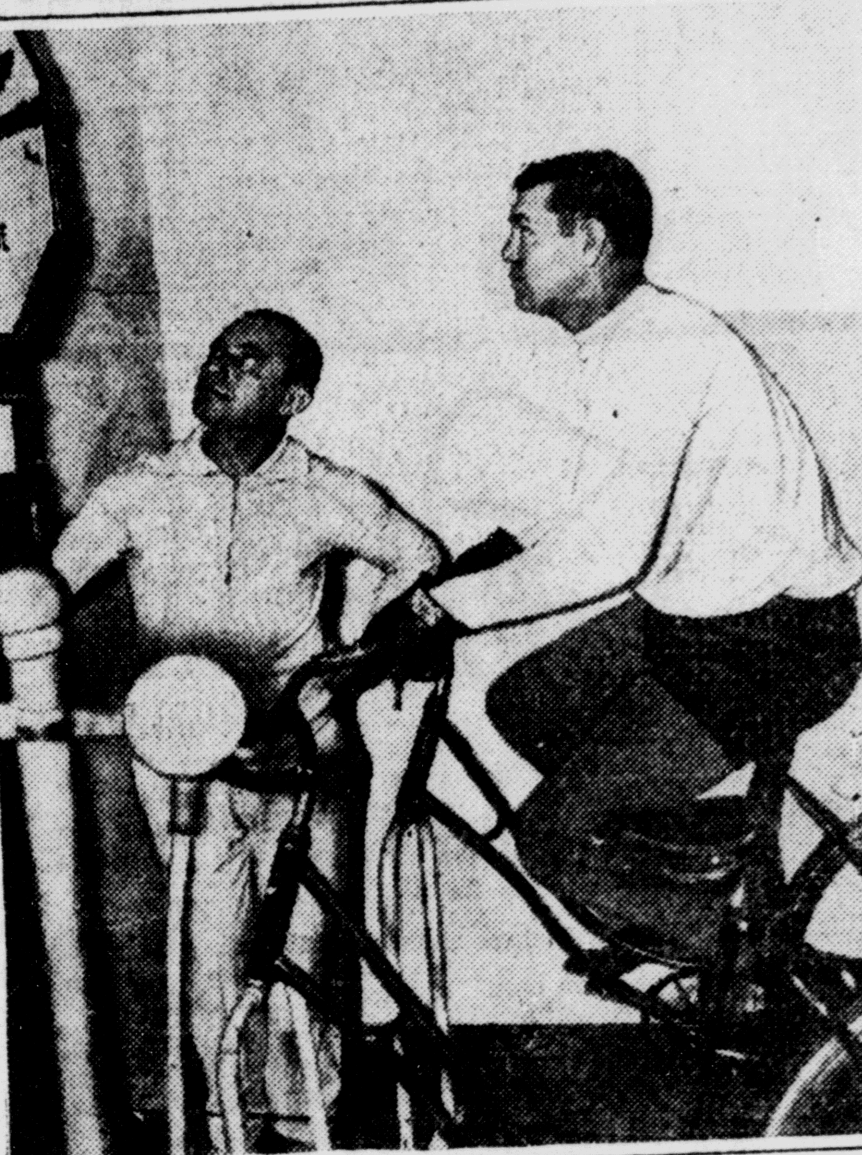

The St. Louis Browns aren't likely to do anything sensational but they do have a trio of real stars in Pitcher Newsom, Center Fielder West and Second Baseman Melillo. The team also has a colorful manager and a few promising youngsters, but as a whole the squad hasn't enough polish to get higher than seventh.

The Chicago Whitesox have Al Simmons and a collection of youngsters from the American association and Texas league. During the spring exhibition games they have shown hitting power but the pitching and fielding has been anything but satisfactory.

A very practical suit for spring is a reefer type of gray herringbone tweed with shoulder epaulets, wide revers, flap pockets and high double-breasted closing. Leather buttons of matching gray trim this smart suit.

A pajama outfit of checked gingham, worn with a dark triangular scarf of contrasting color knotted close about the throat, is one of the most popular models seen on the sands at Palm Beach.

### DEMPSEY ON THE BICYCLE NOW

Sports writers covering the Dempsey-Tunney fight in Chicago made much of the fact that Tunney saved himself from a knockout by "riding his bicycle". Now the party of the first part, Jack Dempsey, has taken to the bike, but it's a different one, in Artie McGovern's New York gym, where Jack is taking regular workouts.

### Gets No Votes, Asks A Recount

(International News Service)

SEATTLE, Wash., April 13.—There's too much dirty work at the election crossroads, complains a candidate at last month's civic elections, writing to a local newspaper. He says:

"I ran for school director at Thomas Lake. I did not get a single vote, although I voted for myself. Should I demand a recount or wait until next year and try again? The campaign cost me five gallons of gasoline, two quarts of moon and three boxes of snuff—(signed) Forgotten Man."

### Anglers Await Trout Season

Conditions Here For Trout Fishing Are Not Normal

VIRTUALLY ALL STREAMS STOCKED

Fishermen throughout Lawrence county are awaiting the trout fishing season which opens Monday and judging from the number of trout placed in practically all of the streams in this county fishermen may have good results providing the water recedes. At present conditions for trout fishing are far from normal according to veteran fishermen.

A considerable number of trout were placed in all the trout streams except the Slippery Rock creek. The stocking was done by the Lawrence County Sportsmen's association with trout secured from state hatcheries.

Annually it has been the custom to show the results of stocking here. Fishermen have filed out a blank published in The News showing the result of their fishing. They are requested to do so again this season.

## Accident Fatal To Local Man

Frank H. Rouser, 68, Dies In Local Hospital Yesterday After Accident

## HIT BY TRUCK ON HIGHWAY

ELLWOOD CITY, April 13.—Frank H. Rouser, 68, of the New Brighton road died last evening at 5:30 in the Ellwood City hospital from a fractured skull, received when he was struck by a large truck while walking on the highway on Route 388.

Clarence A. Walley of Zellenople was driving the truck for the McQuillan Company of Harmony, Pa. According to his report at the local police station and an investigation conducted by County Coroner Orville Potter, the accident happened about 1,000 feet south of McQuillan's Service Station. Walley was traveling north on this road and near the above place he observed Rouser walking along the highway.

As the truck was passing him, Walley turned around and believed that he saw the pedestrian slip and lose his balance. The truck was large and had big double rear wheels.

Rouser seemed to sway onto the highway and was struck by the rear fender of the truck. His head was injured by a light on the top of the fender, which was knocked off by the impact. He immediately stopped and helped load the unconscious victim into the car of a passing motorist, which rushed him to the local hospital. This accident happened shortly before 3 o'clock. Rouser died at the hospital without regaining consciousness.

The deceased is the son of the late Adam Rouser, pioneer resident of North Sewickley township and was the last of his family. A sister preceded him in death two years ago. There are no immediate survivors but a number of cousins reside in this district.

Funeral services will be held on Monday afternoon at 2:30 from 902 Sixth avenue, Beaver Falls. Interment will be made in the North Sewickley cemetery.

## Stock Market Is Stronger Today

Silvers At Head Of List Of Strong Stocks; Utilities Improved

(International News Service)  
NEW YORK, April 13.—The stock market was generally strong today with silvers at the head of the procession. Cerro de Pasco sold up more than a point to a new high since 1930. U. S. Smelt and American Smelting were strong. Coppers advanced in sympathy. Golds were sluggish.

Utilities improved, featured by huge dealings in Consolidated Gas at near the best 1935 prices.

In the industrials, John Manville jumped 2 points, and Case Threshing more than a point. American Can and DuPont were strong.

Chrysler was active, the initial transaction involving 2,000 shares, but the gain was only fractional. General Motors failed to get far.

Rails were somewhat better. Union Carbide was active.

Steels were stronger, led by U. S. Steel which reached a new high on the move. Aviations and liquors were quiet, but farm shares were all stronger.

## Chorus Winners Are Announced

Several Friday Afternoon  
Contests In School Eliminations Are Interesting

### SOME GROUPS WIN WITHOUT SINGING

Class B chorus competition at the Senior high school and Class C band and orchestra competition at the Benjamin Franklin junior high school, featured Friday afternoon's program of the Northwestern Pennsylvania Inter-Scholastic Music and Forensic contest. Events in the meet closed today.

At the Lincoln avenue building the Class A girls' boys' and mixed choruses had been scheduled to compete but because of no competition in each of those events the large group that appeared was pronounced winner.

Grove City sent the only Class A girls' and boys' chorus and so was pronounced winner in those events. Sharon mixed chorus was the single entry in that Class A division and so won first honors. Neither of the groups sang.

The Class B chorus results at Senior high follow:

Class B Girls' Chorus  
Shenango, first.  
Millcreek, second.  
Greenville, third.  
Zelienople, fourth.

Class B Boys' Chorus  
Zelienople, first.  
Greenville, second.

Class B Mixed Chorus  
Titusville, first.  
Zelienople, second.  
Greenville, third.  
Winners in afternoon events at Benjamin Franklin junior high school:

Class C Orchestra  
Evans City, first.  
Mount Jackson, second.  
Sandy Lake, third.  
Springboro, third.

Class C Band  
Mount Jackson, first.  
Karns City, second.

Horse racing and gambling have been condemned by Mrs. Nina G. Frantz, president of the W. C. T. U. of New Jersey.

## Says Conditions Found In Iowa Fraternity Rare

(International News Service)  
DES MOINES, Ia., April 13.—Conditions which resulted in the ousting of Phi Beta Delta Jewish fraternity are rare on the University of Iowa Campus, state agents Frank Moorhead and A. G. Haight reported to the governor today.

They branded as "absolutely untrue, false and libelous" statements attributed to members of the disbanded fraternity that the two girls involved in the ousting had "circulated freely from fraternity to fraternity."

The state agents were sent to investigate when the 23 members were suspended on charges of keeping a disorderly house.

## One Yank "Holds Fort" In Nazaire

(International News Service)  
SAINT NAZAIRE, France, April 13.—Out of the many thousands of American soldiers who passed through this A. E. F. base in 1917-19, only one is left today. He is Daniel Paul Ryan, ex-medical corps, formerly of Chicago and Pittsburgh.

His home is a few steps from the statue by Mrs. Grace G. Whitney which shows a doughboy on the wings of an American eagle, and his two children, a boy and a girl, often play on the beach near it.

Still a U. S. citizen, Ryan has become a community leader, and proprietor of a department store.

Poems may become classical by virtue of many qualities commanding admiration; but without charm they will not be turned to again and again for refreshment.

## On Court House Hill

Summons in trespass has been filed at the prothonotary's office by Margaret J. Corbell against Mary Weber. Statement of claim will be filed later.

County Treasurer William O. Pitts is having over 57,000 tax cards printed. They will be used to notify property owners and others of the amount of their 1935 taxes. It is expected that some of them will be ready to send out by April 22nd.

Complete list of executions filed at the sheriff's office up to Thursday the last day for filing, shows that twenty sheriff sales will take place on the first Monday of May, unless some of the cases are settled before that date. In a majority of the cases there are large amounts of back taxes.

Under the will of the late Margaret Flynn of the fourth ward the bulk of the estate is divided equally among Gertrude Kilch Campbell, Jane Kilch Westlake, Alvie Kilch Cunningham and Mary Kilch Anderson. Alice Kilch Cunningham is named executrix with power to sell property when a satisfactory price can be secured.

Receipts at the county treasurer's office have almost reached the vanishing point. On two days of this week, there was nothing taken in and on the other days only small amounts. Payment of delinquent taxes has practically dried up since the Home Owner's Loan Corporation's activities were curtailed. The only real source of income now is from Delinquent Tax Collectors who report periodically.

By the will of the late Anna M. Sontum of Union Township, certain personal effects are left to her daughter, Mary L. Sontum and sons Walter C. Sontum, H. William Sontum and Fred W. Sontum. The remainder is to be divided among the children, share and share alike. Attorney J. Clyde Gilfillan is named as executor.

Ruth Umstead of New Castle R. D. 2 has filed an application at the prothonotary's office for a divorce from her husband, Joseph Umstead, of Knox avenue, on the grounds of desertion. They were married at Jamestown, N. Y. in January, 1925. The case will come up for hearing at the next session of divorce court.

An appeal from the decision of

Alderman Richard R. Lewis has been taken in the case of the Green Light Taxi Company against Albert Pitzer of 601 North Lafayette street. The case grew out of an automobile accident. Phil Unamgt, driver for the Green Light Company had killed his car to a stop, when it is claimed that the Pitzer car collided with the Unamgt car while attempting to pass. The alderman rendered a decision for \$40.85 in favor of the plaintiff. The defendant claims an offset.

Sentence court will be held on next Monday morning for the purpose of taking pleas and passing sentence on any prisoners who wish to plead guilty. Several have signified their intention of pleading. There are now 34 prisoners in the county jail, according to Deputy Sheriff Elmer Taylor. Only two of them are women.

Attorney W. W. Stevenson, of the local branch of the Humane Society says that he has received a number of letters in which complaints have been made against the methods of dog catcher Jack Young. Particular objection is made to his employment of a police dog. It is further charged that dogs have been impounded and the owners given an opportunity to redeem them. Attorney Stevenson has taken the matter up with the state Humane Society and asked for an investigation.

Fellow Rotarian:

We will have to hand it to Lee McFate for two things last week, a bang-up program subject and a nominating plan that brought out much rugged individualism.

This week we will have another vitally interesting subject under discussion:

**Old Age Pensions, Blind Pensions**

These three relief measures are handled through one organization with one paid worker. These three relief measures represent half of the relief measures in operation in the State. The subject will be explained by one who has given unstintingly of her time to this work, Mrs. Grace Crawford, Mrs. Crawford devotes her entire time, and it is more than a 30 hour week to this work without any financial remuneration.

### URGES UNION TWP. SEWER

Editor News, April 12, 1935.  
New Castle, Pa.  
My Dear Sir:—

I want to commend The News for the publication of the letter of Claire Badger concerning the sanitary sewer for District No. 2 of Union township. Mr. Badger has stated the facts in the case succinctly and his feeling in the matter is the feeling of most of us.

May I draw your attention to another phase of the situation? When the new state highway was put through it was and is a splendid improvement for the township and the county. However, like most good things there were several inconveniences attending it. Some of the residents in the district are now "in a hole"; that is, the road is above the level of their yards and as a result they cannot drain their cellars.

With the government furnishing the labor, with the city council co-operating with us, and with the cost to the residents only that for the material I cannot see why any person will not come in and pay his share.

What will probably happen if we do not seize the opportunity now is that after the RWD work is done, the State Department of Health will come in and force us to put in a sewer, with the residents paying both labor and material costs.

I sincerely trust that the citizens who have not yet agreed to do their share will change their minds and thus save themselves and all the rest of us considerable money.

Respectfully,

R. R. PEDEN,  
R. D. 2, New Castle, Pa.

CORNISH, Colo., April 13.—Windstorms that whipped valuable topsoil from prairie farm lands and caused annoyance and expense to motorists and housekeepers, proved a valuable aid to archeologists.
